The Primacy printer is extremely fast, powerful and efficient. Using advanced encoding technologies, this desktop printer is the best solution for issuing personalized cards, from the most simple to the most secure. Primacy is available in single and dual-sided versions and is the ideal choice for printing and encoding cards in medium and large runs.

**ENHANCED PRODUCTIVITY**
- Primacy personalizes color cards in record time: up to 225 cards per hour for single-sided printing and 140 cards per hour for dual-sided.
- The printer offers a large autonomy thanks to its high capacity card feeder and output hopper.

**PROFESSIONAL PRINTING**
- Primacy features 300 dpi photographic resolution and edge to edge printing for optimum print quality.
- Thanks to an enhanced graphical processing, you get a faithful depiction of the images in high definition and more precise monochrome texts.

**SCALABILITY ON SITE**
- As Primacy evolves according to your needs, you can activate the dual sided printing option on the spot.
- Your printer can also be upgraded with a card lamination module and encoders for magnetic stripe, contact or contactless chip.
