

SO,
HOW DO YOU IDENTIFY
YOUR STUDENTS?

PRINT ALL YOUR STUDENT ID BADGES ON PLASTIC CARDS ON DEMAND

IMPROVE SECURITY ON YOUR CAMPUS

- Manage access to your campus and monitor the attendance of students and staff in your buildings in real time.
- Identify your students and staff at a glance.

CREATE BADGES FOR MULTIPLE APPLICATIONS

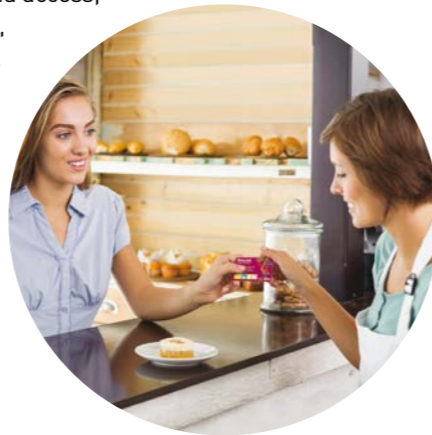

With Evolis solutions, you can customize and print all kinds of badges:

- Student ID cards and school ID cards
- Teachers' badges
- Media library cards
- Cafeteria cards
- Visitor badges

CHOOSE THE MULTI-PURPOSE CARD

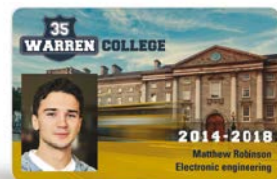

The smart contact encoding technology enables your students to use a single card for different purposes: identification, access control, cafeteria access, payment, library access, or even transportation.

- Ease of use for students
- Pooling of costs and reduced time to produce cards
- Improved campus security due to a reduction in cash circulation

CONTROL COSTS AND REDUCE TIME

- **Benefit from improved responsiveness:** students can immediately use their personalized badge, even after loss or theft.
- **Reduce your costs and turnaround times:** you are no longer reliant on your printing company, which simplifies the process of obtaining cards - no paper forms, filing, postal delays, or risk of losing cards in transit.

CUSTOMIZATION SOLUTIONS DESIGNED TO MEET YOUR NEEDS

TURNKEY SOLUTIONS FOR STANDARD CARD PRODUCTION

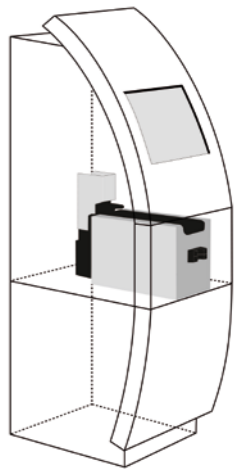

- **Encoding, printing and lamination:** depending on the printer model, data can be encoded on cards, color or monochrome designs can be printed and, in order to protect the cards, a lamination film can be applied. These operations can be performed in one single pass.
- **Ease of use:** create your design in just a few clicks with the accompanying software and operate the card printer just as easily as any standard desktop printer.
- **Performance:** Evolis printers produce professional-quality badges in record time and can be used in a Mac or PC environment. They can also integrate and combine various encoding options (magnetic stripe, contact or contactless chip).
- **Connection to your databases:** produce a series of badges by importing student data from your IT systems.
- **Low-cost consumables:** Evolis printing ribbons are easy to use, guarantee optimal graphic output and due to their high capacity, ensure that printers are highly independent.

TAILOR-MADE SOLUTIONS FOR MORE COMPLEX REQUIREMENTS

Our teams work in close partnership with education market specialists such as Monecarte or ScholarChip to deliver customized card production systems. In particular, we can:

- provide specific technology (e.g. rewriteable cards)
- integrate printing modules into self-service machines
- adapt hoppers for a higher capacity

Our solutions can interact with your software platforms, whether they are used to manage staff and student attendance, to monitor services on campus, or to control access.

CAPTURING DIGITAL SIGNATURES

Use Evolis signature pads to digitize your students' signatures:

- Saves a lot of time in document administration.
- Signatures can be included on cards and badges.

ACCESSORIES FOR ALL YOUR CARDS

- A complete range of lanyards, clip fasteners, and cardholders to carry and protect your cards.
- Customize with your corporate colors on request.

THE EVOLIS GROUP, RECOGNIZED EXPERTISE

OUR CUSTOMERS TRUST US

Many schools and universities have chosen Evolis solutions to produce their ID cards.

THE SCHOOL DISTRICT OF
PHILADELPHIA
